

TECHNICAL DATA SHEET

BV-09SG Surgical Gown

BV-09SG Surgical gown is made from non-woven SS fabric with added PE lamination providing exceptional protection against fluids under minimum or low liquid pressure conditions.

KEY FEATURES

- Single-use gowns
- Ties on the side eliminate the difficulty of tying behind the back
- Velcro closure on the neck provides perfect adjustment for full coverage and flexibility
- Cuffs made of white knitted material on the wrists area provide soft wrist closure for the comfort as well as ensuring a better and tighter fit
- Latex-free
- Non-sterile

NON-STERILE

APPROVALS

Fulfill the requirements for Class I MDD under Medical Device Regulation (EU) 2017/745. These gowns also fulfill all essential requirements and the related rules of the European Economic Commission 93/42/EEC Medical Devices Directives (MDD). They also comply with AAMI Protective Barriers classification system and the associated minimum requirements for the liquid barrier performance of protective apparel and drapes based on ANSI standards
