

## TECHNICAL DATA SHEET

### BV-12SG-S Surgical Gown

*BV-12SG-S surgical gown, fully compliant with EN 13795-1 standard, is made from non-woven SMMS fabric with added PE reinforcement providing AAMI level IV protection. Level IV gowns offer exceptional protection against fluids under moderate or high liquid pressure conditions.*

### KEY FEATURES

- Complies with EN 13795-1:2019
- AAMI PB70 level IV protection
- Single-use gowns
- 2 internal and 2 external double ties on the side eliminate the difficulty of tying behind the back.
- Velcro closure on the neck provides perfect adjustment for full coverage and flexibility
- Cuffs made of white knitted material on the wrists area provide soft wrist closure for the comfort as well as ensuring a better and tighter fit
- PE reinforcement is applied for extra protection
- Latex-free
- Packaged in two layers (sterilization package and final transparent pouch), the gowns include two absorbent hand towels and sterilization markers.
- Sterilized with EO
- Offers protection against biohazards.

**STERILE | EO**

### APPROVALS

Fulfill the requirements for Class I MDD under Medical Device Regulation (EU) 2017/745. These gowns also fulfill all essential requirements and the related rules of the European Economic Commission 93/42/EEC Medical Devices Directives (MDD). They also comply with AAMI Protective Barriers classification system and the associated minimum requirements for the liquid barrier performance of protective apparel and drapes based on ANSI standards
